

A photograph of two people, a man and a woman, in a meeting. The man is on the left, wearing glasses and a dark shirt, pointing towards a whiteboard. The woman is on the right, also wearing glasses and smiling. The image is overlaid with a green tint. The NOVUM AUTOMATION logo is visible on the man's shirt.

We're advancing product development.

Our innovative engineering and fabrication team takes manual processes, such as data acquisition and lifecycle product testing, and automates them for optimal system control, advanced insights, and positive ROI.

OUR MISSION

Design and build accessible automated insights that enable advanced product development decision making.

OUR FOCUS

Automated Test Systems

Industrial Automation

Software Development

Electrical Panel Building

Measurable. Improvable. Profitable.

Our collaborative deployment process connects engineers to their R&D and production operations with advanced synchronization, remote access, and real-time dashboards that enable cross-functional visibility and organizational efficiency.
